

Unfortunately we have had to make a change in our Office Policy regarding missed appointments.

Effective immediately, after 3 or more missed (no call/no show) appointments or last minute cancellations, we will no longer appoint at our office.

We understand situations arise and can interfere with scheduled appointments. We value our time and we value all of our patients time in a sense that communication is key to common courtesy when an appointment cannot be kept. A 24 hour notice is required if an appointment cannot be kept.
